

Roll Call of States

Frank Winters

New York State office of Cyber Security
and Critical Infrastructure Coordination

Texas

Jim Patterson

Recent Project(s)/application(s)

1. Main Street Texas expansion
2. Enterprise Integration of GIS
3. Microsoft Virtual Earth implementation
4. State Agency IT Consolidation

Interested In the Following Issue(s):

1. Virtual Earth integrations
2. Serving image archives
3. Updating Strategic plans
4. State agency IT consolidations

FOLLOWED BY *Utah*

THEN

Vermont

Utah

Chris Glazier

Recent Project(s)/application(s)

1. Strategic Plan

Interested in the following issue(s):

1. Contract out entire GIS needs

FOLLOWED BY *Vermont*

THEN *Washington*

Vermont

Shawn Nailor

Recent Project(s)/application(s)

Open Roads – Public portal for asset and project information

1. Route Logs – Phase 2
2. ROW Excess Property
3. ESRI 9.2 Upgrades

Interested in the following issue(s):

1. Multi-state web mapping applications
2. ArcGIS Server
3. Hydraulics Flow Applications
4. SharePoint Integration

FOLLOWED BY *Washington*

THEN

West Virginia

Washington

George Spencer

Recent Project(s)/application(s)

1. ArcGIS 9.2/GIS Workbench Upgrade
2. ArcGIS Server Winter Operations App.
3. Statewide Ortho Imagery w/ Image Server
4. GIS Traffic/Collision Analysis

Interested in the following issue(s):

1. ArcGIS Server Application Development
2. GIS Integration Real Estate/ROW parcels
3. CAD to GIS to CAD Interoperability
4. Enterprise Statewide Roads Database

FOLLOWED BY *West Virginia*

THEN

Wyoming

West Virginia

Hussein Elkhansa

Recent Project(s)/application(s)

1. Road Inventory Log Geodatabase
2. Straight Line Diagram Application
3. Statewide Transportation Improvement Program
4. GPS Referencing Stations

Interested in the following issue(s):

1. Enterprise Wide Implementations
2. Field Crew Automation
3. Linear Referencing
4. Transportation Data Models

FOLLOWED BY *Wisconsin*

THEN *Wyoming*

Wisconsin

Recent Project(s)/application(s)

Interested in the following issue(s):

FOLLOWED BY *Wyoming*

THEN *Alabama*

Wyoming

Ben Saunders

Recent Project(s)/application(s)

1. Physical Office & Server Move to Transportation Management Center
2. Crash Database GIS Enablement
3. Support New 511 Implementation
4. ITS Inventory Database

Interested in the following issue(s):

1. Mobile/Field Data Maintenance
2. CAD/GIS Data Integration
3. Local Road Conflation
4. Project Management

FOLLOWED BY *Alabama*

THEN *Alaska*

Alabama

Mike Rief

Recent Project(s)/application(s)

1. ArcEngine Bridge Document Retrieval Program
2. TransView – Video log of multi-lane travel
3. ArcIMS Traffic Count Webpages
4. Fatal/Type A Injury Crash Milepost Mapping

Interested in the following issue(s):

1. Improving Transportation Safety
2. Improving Asset Data Management through GIS
3. Writing a Comprehensive GIS Strategy Document
4. Getting the State Personnel Department to amend the present GIS Classifications to work with ALDOT and other agencies

Alaska

Kerry Kirkpatrick

Recent Project(s)/application(s)

1. GIS development project
2. PhotoLog data collection
3. GIS Network expansion/maintenance
4. GDB

Interested in the following issue(s):

1. GDB
2. Web applications
3. Data collection

Arizona

Mick Cseri

Recent Project(s)/application(s)

1. HPMS and SHS Log preparation
2. Centerline update and maintenance
3. GIS data integration with Data Warehouse
4. Miscellaneous mapping projects

Interested in the following issue(s):

1. ArcSDE and improving performance
2. Integrating more maps with ArcIMS
3. Improving our delivery of data to FHWA for HPMS
4. Improving business practices within our GIS group

FOLLOWED BY *Arkansas*

THEN *California*

Arkansas

Sharon Baker

Recent Project(s)/application(s)

1. Local roads and city streets added to the LRS
2. Impact of heavy trucks on weight restricted routes
3. Solis analysis on local roads under study
4. Conversion of road inventory database to SQL

Interested in the following issue(s):

1. Utilizing DEMs to produce line of sight and 3D modeling
2. Data standardization throughout the department

California

Oscar Jarquin

Recent Project(s)/application(s)

1. Bond accountability public website
2. CA 511
3. Transportation project outputs tracking
4. GIS project tracking

Interested in the following issue(s):

1. Messaging services - JMS
2. Web Services Orchestration
3. Web Editing
4. Custom Route Management Tools

Colorado

Marvin Koleis

Recent Project(s)/application(s)

1. LRS Unification
2. Departmental Intranet Web Mapping Interface – V2
3. Roadway Geometrics Data Collection
4. Street Travel Map – Software Modernization & Map Publication

Interested in the following issue(s):

1. HPMS Reassessment – Data Collection Implications
2. Environmental Planning Linkage – GIS Support
3. DOT Geospatial Web Strategies
4. Mobile GIS Integration in DOT Operations

FOLLOWED BY *Connecticut*

THEN *Delaware*

Connecticut

James Spencer

Recent Project(s)/application(s)

1. Enterprise-wide GIS
2. Development of new Bi-Directional Road Network
3. Data Standardization
4. Incorporation of Legacy Systems

Interested in the following issue(s):

1. Enterprise and Road Network Data Modeling
2. Data Standards
3. Cartographic Mapping
4. ArcGIS Server

Delaware

Donald Burris

Recent Project(s)/application(s)

1. Oversized and overweight vehicle routing
2. HPMS Monitoring Systems

Interested in the following issue(s):

1. Routing
2. Linear Referencing Systems
3. Enterprise Asset Management

District of Columbia

David Miller

Recent Project(s)/application(s)

1. Enterprise Asset Management Systems (TEAMS)
2. Enterprise Work Order Management Systems (Cityworks)
3. Web-based Permitting System (Cityworks)
4. Videologging

Interested in the following issue(s):

1. GIS feature extraction from videologs
2. ArcSDE Versioning workflows in an Enterprise GIS
3. Data Stewardship across the Enterprise
4. Integrating data from legacy systems

Florida

Jared Causseaux

Recent Project(s)/application(s)

1. Strategic Planning for an Enterprise GIS
2. Phase I of an Enterprise GIS for Transpiration
3. Continued efforts towards a Florida Unified Basemap

Interested in the following issue(s):

1. Strategic Planning
2. GIS Policy and Procedures
3. Data Standards and Business Plans
4. Transportation Data Inventories

FOLLOWED BY *Georgia*

THEN *Hawaii*

Georgia

Teague Buchanan

Recent Project(s)/application(s)

1. Enterprise GIS Architecture
2. Local Assistance Roadway Program
3. Bridge Inventory
4. Active Construction Web Pages

Interested in the following issue(s):

1. CAD Interoperability – Microstation w/ ESRI
2. Data Analysis – ArcGIS Server .NET/Java
3. Oracle Spatial – Transportation Data Model
4. Data Governance

Hawaii

Jennifer Arinaga

Recent Project(s)/application(s)

1. SLD web application
2. Image data library management

Interested in the following issue(s):

1. Data management tools
2. Improvements in road data models

Idaho

Gary Sanderson

Recent Project(s)/application(s)

1. Updating the Idaho roadway base map
2. Data sharing with non-State agencies

Interested in the following issue(s):

1. Google Earth images adequate for network planning
2. Publishing GIS tools out to the masses
3. Demystifying GIS – just another tool set

Illinois

William Oesterreich

Recent Project(s)/application(s)

1. Safety Engineering/Crash Analysis
2. Road Inventory Database System
3. GIS Integration with Agency Business Processes
4. Illinois GIS Transpiration Data Sharing Coalition

Interested in the following issue(s):

1. Data Sharing Agreements
2. Service based application architecture
3. Transportation Data Models
4. New Geospatial Technologies

Indiana

Joel Bump

Recent Project(s)/application(s)

1. Field collection of maintainace defects
2. Asset collection for Work Management System
3. Assist in establishing GIO Office for Indian

Interested in the following issue(s):

1. GIS/GPS Field Application
2. Integrating GIS in the enterprise
3. Making GIS available to the larger audience

Iowa

Eric Abrams

Recent Project(s)/application(s)

1. Iowa linear referencing system
2. Iowa DOT Web Map Services
3. State Wide LiDAR Collection
4. Google Maps Implementation

Interested in the following issue(s):

1. Google Maps
2. LiDAR Software and Storage
3. Web Map Services
4. Other states using Iowa's LRS

FOLLOWED BY *Kansas*

THEN *Kentucky*

Kansas

Brian Logan

Recent Project(s)/application(s)

1. Public access to GIS Portal
2. Straight-Line Diagram Planning
3. Browser and map performance for the public.

Interested in the following issue(s):

1. Interactive maps and multiple browsers
2. Public access to data
3. Use of Google and Microsoft Virtual Earth

Kentucky

Kenny Ratliff

Recent Project(s)/application(s)

1. Kentucky Watershed Modeling Information Portal
2. Kentucky Landscape Census
3. Library of Congress/NDIIP Grant
4. Geospatial support procedures for KY Emergency Management

Interested in the following issue(s):

1. Acquiring parcel information for a statewide coverage
2. Creation of a comprehensive decodable street centerline coverage

FOLLOWED BY *Louisiana*

THEN

Maine

Louisiana

James Mitchell

Recent Project(s)/application(s)

1. Remapping to replace All UISGS Maps
2. Migration to ArcGIS Server 9.2
3. Base Map and LRS to All Public Roads
4. Migration of all CASS Projecgt/Wise

Interested in the following issue(s):

1. Funding \$10 Million to remap the State
2. Building a Seamless Statewide Base Map
3. Enterprise Mapping from Digital Data
4. Obtaining accurate data/vertical control

FOLLOWED BY *Maine*

THEN *Maryland*

Maine

Thomas Marcotte

Recent Project(s)/application(s)

1. Straight line diagramming web application
2. Historic property survey web application
3. Contentiously Operating Reference Stations
4. Right of Way Indexing Desktop Application

Interested in the following issue(s):

1. Web Services
2. CAD Interoperability
3. Asset Management
4. Open Source GIS

FOLLOWED BY *Maryland*

THEN *Massachusetts*

Maryland

Michael Sheffer

Recent Project(s)/application(s)

1. ArcIMS Site SHAWME
2. Hurricane Debris Modeling
3. Transportation Spatial Database
4. Asset Management Data Warehouse

Interested in the following issue(s):

1. Emergency Management and transportation issues
2. Asset Management
3. LRS and routing
4. 3D data and 3D Street centerlines

FOLLOWED BY *Massachusetts*

THEN *Michigan*

Massachusetts

Mark Berger

Recent Project(s)/application(s)

1. Upgrading web-based applications from ArcIMS to ArcServer
2. Deployed new Highway Route Log Application
3. Upgraded road inventory to include street addresses
4. Created a new rail inventory file

Interested in the following issue(s):

- Updated road inventory file physical attributes using VideoLog
- Expanded web-based GIS applications showing transportation assets

FOLLOWED BY *Michigan*

THEN *Mississippi*

Michigan

GilnChesbro

Recent Project(s)/application(s)

1. Oracle Spatial

Interested in the following issue(s):

FOLLOWED BY Minnesota

THEN Mississippi

Minnesota

Dan Ross

Recent Project(s)/application(s)

1. Migration to ArcGIS and ArcServer 9.2
2. GIS Portal Implementation
3. GIS Strategic Plan

Interested in the following issue(s):

1. Moving GIS toward SOA
2. ArcServer applications and deployments
3. Funding models for enterprise GIS implementation

Mississippi

Julian Barksdale

Recent Project(s)/application(s)

1. Safety Analysis Management System
2. Maintenance Management System
3. Statewide Road Data Collection
4. Enterprise TerraShare rollout

Interested in the following issue(s):

1. Multi-level linear referencing systems
2. Service Oriented Architecture
3. Pavement Management Systems

FOLLOWED BY *Missouri*

THEN

Montana

Missouri

Arnold Williams

Recent Project(s)/application(s)

1. Traveler information map
2. Map My Trip
3. GPS Linework Basemap Quality Assurance

Interested in the following issue(s):

1. Data Sharing
2. Migration from overages to feature classes
3. DOQQ
4. LiDAR

FOLLOWED BY *Montana*

THEN

Nebraska

Montana

Marlin Sander

Recent Project(s)/application(s)

1. Custom GIS PDA applications for Engineering
2. Integration of Oracle Spatial and ArcGIS
3. Redesign of Linear Referencing Systems

Interested in the following issue(s):

1. Linear referencing system design
2. New DOT GIS applications and implementations

Nebraska

Rose Braun

Recent Project(s)/application(s)

1. Initiative to develop Statewide Street/Centerline Addressing
2. Effort to create a Statewide public web portal to share data from various State, Federal and local agencies
3. Continue to collect Statewide E 911 Road names
4. Marketing and enhancement of NECTAR (Nebraska Enterprise Centerline Transportation Attribute Resource)

Interested in the following issue(s):

1. Other States' use of Google Earth, Virtual Earth, and Google or Yahoo maps
2. How other states are using local GIS data layers
3. Storage of Aerial Photography
4. Converting County and City CADD maps to GIS

FOLLOWED BY *Nevada*

THEN

New Hampshire

Nevada

Eric Warmath

Recent Project(s)/application(s)

1. IRWIN - Right of Way Project
2. Historical Road Network Project
3. Safety Management Project
4. GIS software migration

Interested in the following issue(s):

1. Enterprise data distribution systems
2. 3D data integration
3. Federal Standards for Transportation Attributes
4. Asset management

FOLLOWED BY *New Hampshire*

THEN

New Jersey

New Hampshire

G. Stuart Thompson

Recent Project(s)/application(s)

1. Route Priority
2. Access Management
3. Crash Analysis
4. ArcGIS

Interested in the following issue(s):

1. Developing a GIS Workforce
2. Tools for Local Agencies
3. ArcGIS
4. Crash Analysis

FOLLOWED BY *New Jersey*

THEN *New Mexico*

New Jersey

Mark Gulbinsky

Recent Project(s)/application(s)

1. Automated accident records mapping
2. Geotechnical website
3. NJDOT intranet mapping applications
4. Audubon Society birding trail maps

Interested in the following issue(s):

1. ArcGIS Server mapping applications
2. 2007 Orthophotography implementation
3. Adding address ranges to linear referencing system
4. Incorporating private, park and unimproved roads into LRS

FOLLOWED BY *New Mexico*

THEN

New York

New Mexico

Glen Condon

Recent Project(s)/application(s)

1. Migration of Mainframe Roadway Database to Exor Highways
2. Development of New Web Mapping Services
3. ROW Cadastral

Interested in the following issue(s):

1. Issues Related to Migration to Exor Highways
2. ArcGIS Server Applications

FOLLOWED BY *New York*

THEN

North Carolina

New York

Kevin Hunt

Recent Project(s)/application(s)

1. Road Status Damage Assessment Tool
2. Local Highway Route System
3. Asset Management

Interested in the following issue(s):

1. The perfect transportation data model in the imperfect world
2. New “enterprise” ID for LRS
3. Web based GIS services

FOLLOWED BY *New Carolina*

THEN

North Dakota

North Carolina

John Farley

Recent Project(s)/application(s)

1. Enterprise Spatial Database Prototype
2. LRS v1.1
3. Integrated State Road Network
4. Secondary roads Improvement Program
5. Linear Referencing

Interested in the following issue(s):

1. Linear Referencing
2. Image Management Systems
3. ArcSDE Configurations and Implementations
4. Geocoding for Traffic Information Management Systems

FOLLOWED BY *North Dakota*

THEN

Ohio

North Dakota

Brian Bieber

Recent Project(s)/application(s)

1. OnRamp – GIS Video Log System
2. Deep Fountain Logging Application
3. Upgraded to New Server and ArcGIS 9.2
4. Mobile Sign Project – ArcGIS Advanced Server

Interested in the following issue(s):

1. Mobile data collection and editing
2. Straight line diagrams
3. Linear Referencing maintenance
4. Raster attributes and collection

FOLLOWED BY *Ohio*

THEN

Oklahoma

Ohio

David Blackstone

Recent Project(s)/application(s)

1. Statewide Imagery Project
2. Oracle 10G Migration Project
3. GPS Roadway Collection Project
4. Web Portal Project

Interested in the following issue(s):

1. Multi-Vendor Oracle GeoWarehouse
2. LiDAR Usage
3. Google/VE Mashups

FOLLOWED BY *Oklahoma*

THEN *Oregon*

Oklahoma

Jay Adams

Recent Project(s)/application(s)

1. GRIP v3 – Intranet Web Application
2. GRIPLite – Internet Web Application
3. Tribal Nation GIS Platform
4. R&D for GRIP Google

Interested in the following issue(s):

1. Truck Routing & Permitting
2. GIS Cultural Resources
3. Environmental GIS Platforms

FOLLOWED BY *Oregon*

THEN *Pennsylvania*

Oregon

Dennis Scofield

Recent Project(s)/application(s)

1. Developing a statewide road transportation layer to be published this year
2. Collection turn and lane restrictions supporting Over Dimensional Truck Routing
3. Collection of coordinate and LRS auto crash data

Interested in the following issue(s):

1. Development and implementation of data portals
2. Integration of Arc and Intergraph web sites
3. Across agency data sharing

FOLLOWED BY *Pennsylvania*

THEN *Puerto Rico*

Pennsylvania

Frank DeSendi

Recent Project(s)/application(s)

1. Tolling I-80
2. Structurally deficient bridges
3. Automated vehicle locating
4. Web Services

Interested in the following issue(s):

1. Intersection Crash Clustering
2. LiDAR Ises
3. Conflation

FOLLOWED BY *Puerto Rico*

THEN

Rhode Island

Puerto Rico

Miguel Martinez

Recent Project(s)/application(s)

1. GIS Office and Photogrammetry Office Integration
2. Development of Digital Photogrammetry
3. ArcGIS Server Development
4. Historical Photos (1930-1977)

Interested in the following issue(s):

1. Image Processing and Orthorectification
2. ArcSDE Database Design
3. Linear Referencing and Dynamic Segmentation
4. GIS Web Services

FOLLOWED BY *Rhode Island*

THEN

South Carolina

Rhode Island

Stephen Kut

Recent Project(s)/application(s)

1. Project Management Portal - ArcGIS Server implementation for project location management
2. Section 106 Streamlining Project with RI Historic Preservation

Interested in the following issue(s):

1. CAD/GIS Integration
2. Server GIS

FOLLOWED BY *South Carolina*

THEN

South Dakota

South Carolina

Donald McElveen

Recent Project(s)/application(s)

1. ITMS
2. RIMS
3. OSOW
4. Hurricane Traffic Web Site

Interested in the following issue(s):

1. Internet/Intranet Transportation Apps.
2. Statewide GIS Mapping Projects

FOLLOWED BY *South Dakota*

THEN

Tennessee

South Dakota

Terry Erickson

Recent Project(s)/application(s)

1. ADA Sidewalks/Intersection Compliance Inventory
2. Off Systems Project Master (STIP / Accomplishments)
3. Migration of Borrow Pit info from file drawer to shapefile

Interested in the following issue(s):

1. All things Right of Way
2. Roadway Lighting Inventory/Inspection
3. Integrating Videolog into GIS

Tennessee

Kim McDonough

Recent Project(s)/application(s)

1. Conversion of TRIMS (TN Roadway Info. Mgmt. System) to Oracle Spatial
2. Initiation of statewide photogrammetry/Base Mapping Program
3. Initiation of TN OneRoad - Program to consolidate 911 and road inventory geometries
4. Initiation of ETRIMS - Web based version of TRIMS client/server application

Interested in the following issue(s):

1. Seamless GIS/CAD Intergration
2. Elimination of Application and database stovepipes
3. Incorporation of local data into state and national databases
4. Incorporation of GIS into standard IT
