

1.1.3

The New & Improved Transportation Subcommittee

Presenter

Raquel Hunt

GIS Program Manager

USDOT/FRA

Raquel.Hunt@dot.gov

Co-Presenter

Mark Bradford

Program Manager

USDOT/BTS Bureau of Transportation Statistics

Mark.Bradford@dot.gov

The TSC works within the Federal Geographic Data Committee (FGDC) to provide solutions within the Transportation Geo-spatial community. Currently, FGDC is being tasked to implement the A-16 guidance which will provide all data lifecycle management. This platform will be used to implement Transportation for the Nation (TFTN) and show the current partnership between FHWA and Census. To provide an overview of the current and future efforts of the Transportation Subcommittee (TSC). This presentation will illustrate how the TSC has worked with multiple agencies to solve some of their current transportation issues.
