

Session

4.2.3 Surface Transportation Envir. And Planning Cooperative Research Program (STEP) for GIS

Presenter

Mark Sarmiento
FHWA
mark.sarmiento@dot.gov

Co-Presenter

The presentation will provide an overview of the new research program created in SAFETEA-LU in Section 5207 of the Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users (SAFETEA-LU) established the Surface Transportation Environment and Planning Cooperative Research Program (STEP), and authorized \$16.875 million per year for FY2006-FY2009 to implement this new program. The presentation will focus on effort underway to implement one part of STEP, Geographic Information System (GIS) and Spatial Information for Improved Decision-Making and the goals to market and promote new technology and innovative and effective uses of geospatial information for Improved Decision Making.
