mstevenson@sha.state.md.us

In accordance with MAP-21, HPMS and ARNOLD, the Maryland State Highway Administration (SHA) is partnering with local jurisdictions in Maryland in bringing together their authoritative local road data with SHA's state road data. This presentation will highlight the requirements and mutually beneficial outcomes for both the local, state and private sectors and how at the same time, SHA is leveraging this initiative to meet the goals of Transportation for the Nation (TFTN).
