FHWA's Every Day Counts II Geospatial Initiative

Presenter

Mark Sarmiento

GIS Planning Analyst

US DOT/FHWA Planning

mark.sarmiento@dot.gov

Co-Presenter

FHWA is promoting the use of geospatial data and tools to facilitate and enhance collaboration between DOTs and their partner agencies in order to make more efficient the delivery of transportation projects. Under the heading of Geospatial Data Collaboration (GDC), this initiative is part of FHWA's Every Day Counts effort. This presentation will review recent activities and new examples focused on meeting these objectives.
