

Session

4.2.2 State Research Needs in GIS

Presenter

Robert Fuhler
Arkansas DOT
robert.fuhler@arkansashighways.com

Co-Presenter

The presentation will provide an overview of research needs in GIS and Geo-spatial from the perspective of a State DOT. The presentation will identify key areas that would benefit from more research and who should address those needs. Information will also be provided on the result of recent research recommendations from Peer exchanges in the area of Environment, Safety, and Asset Management others.
