

3.1.3

IPlan and UPlan

Presenter

Frank Pisani

GIS Manager

Utah Department of Transportation

fpisani@utah.gov

Co-Presenter

Erika Bowen / Andrea Moser

Planning/Program Mgr. /GIS Project Mgr.

Idaho Transportation Department / BIO-West

erika.bowen@itd.idaho.gov / amoser@bio-west.com

Idaho and Utah DOT's have been working together over the last few years on developing a web based GIS tool. This session will highlight the business uses of IPlan and UPlan as well as in-depth discussion on how these organizations are getting their data highly available on maps. The techniques and lessons learned will be useful to the GIS and IT practitioners.

Bio(s):

Frank Pisani is the GIS Manager for the Utah Department of Transportation. He has ten years of experience in GIS management and analysis. Frank earned a BS from The University of Delaware in Resource Economics with an Environmental Concentration and an emphasis in GIS studies.

Erika Bowen manages the Planning/Program Management section at the Idaho Transportation Department (ITD). Her section is responsible for providing long term direction for the planning and management of the state highway system as well tracking the delivery of statewide programs. She is currently involved in making ITD's planning processes more transparent through visualizing statewide data and analysis on a web-based GIS tool, IPLAN.

Andrea Moser directs GIS planning efforts and analyses for BIO-WEST. She has more than 14 years of experience applying GIS on a variety of transportation-planning, community-planning, site-design, re-vegetation/restoration, resource-management, environmental, and enterprise GIS application projects including UPlan and IPlan.
