I Drive Arkansas

Presenter

Sharon Hawkins

Section Head - GIS and Mapping
Arkansas State Hwy & Tran. Dept.
sharon.hawkins@ahtd.ar.gov

Co-Presenter

The Arkansas State Highway and Transportation Department (AHTD) launched a new website (<http://www.idrivearkansas.com>) in late 2013 specifically designed to make the public aware of construction, traffic, weight restricted highways/bridges, welcome centers, etc. while they're traveling Arkansas.

The new website utilizes Google Maps Engine to display and store the data used for the site. This presentation will demonstrate how the site works, the challenges the AHTD has experienced with the new site, future phases for the site and how Google Maps Engine allows for internal data to be shared and distributed at the AHTD.
