

7.2.1

NSDI Strategic Plan Update

Presenter

Gene Trobia

Arizona State Cartographer
Arizona State Land Department
gtrobia@azland.gov

Co-Presenter

Steve Lewis

GIO
US DOT

The Government Accounting Office (GAO) issued a brief entitled, "OMB and Agencies Need to Make Coordination a Priority to Reduce Duplication" November 2012. This presentation will discuss what is being done to develop an updated National Spatial Data Infrastructure (NSDI) Strategic Plan and provide observations about the need for the plan and the process to implement the NSDI to promote the sharing of geospatial data throughout all levels of government, the private and non-profit sectors, and the academic community.

Bio(s):

Gene Trobia serves as the Arizona State Cartographer. He previously managed Pima County's Engineering and Geographic Information Services and worked for the Utah Automated Geographic Reference Center. He is a member of the Arizona Geographic Information Council and chairs the Arizona Geographic and Historic Names Board. Gene is a National States Geographic Information Council (NSGIC) Past-President and co-chairs the NSGIC Outreach Committee. He also served on the National Research Council Mapping Science Committee and currently is a state representative on the National Geospatial Advisory Committee.
